### **St. Louis County Jail roster now available online**

Wondering who's in jail, and what their bail amount is? The roster for the St. Louis County Jail is now available online at [stlouiscountymn.gov](http://stlouiscountymn.gov). The roster report is updated hourly and includes inmate names and mug shots, their alleged offense(s) and when they were booked, where they're being held (some inmates may be transferred to another jail due to overcrowding), and other details.

"Our jail staff gets a huge volume of phone calls from the public wanting to know if a certain person is in custody, what their bail amount is and other questions about their status," said Sheriff Ross Litman. "By posting this information online, we expect to eliminate a lot of those calls, which frees up staff time for other work."

The jail roster lists all adults in custody as soon as they have been assigned a booking number. The information is all public data. Until now, people have had to call or travel to the jail to access it.
