

VOLUNTEER VAN DRIVERS WANTED

Do you have one free day a month you could use to help local veterans?

There are many local veterans who get their medical care at the VA Medical Center in Minneapolis and are unable to get there on their own.

The Disabled American Veterans van with the help of volunteer drivers transports these veterans from the local area to medical appointments every day.

These veterans can't get to their appointments without the help of our volunteer drivers.

Do your part and help a local veteran.

For information on volunteering, call

St. Louis County Veterans Service Office at 725-5285
