Pursuant to Minnesota Statutes 169.87 and St. Louis County Ordinance No. 13 dated March 13, 1972, individual roads may remain posted based on their condition until they recover and are able to carry full legal loads. These individual decisions are made by the maintenance superintendents. For more information related to per axle weight restrictions, we ask transportation companies to refer to our 2014 Road Restrictions Map. This map is color coded to show the road rating in tons and assist with transportation planning. You can find a copy of this map by going to our website: www.stlouiscountymn.gov/roadrestrictions.
