

Business Hazardous Wastes

Clean Shop Collections –

Businesses that are classified as Very Small Quantity Generators (101 – 660 pounds of waste per year) may participate in the Clean Shop collection programs sponsored by the Environmental Services Department. Dates for local collections are set periodically during the summer months. The Clean Shop program of WLSSD collects hazardous wastes for a fee from any qualified business. Participating businesses must pre-register for specific collection dates. Call the Clean Shop program at 218-726-1602.

MClean Services –

Businesses that generate 110 pounds or less of hazardous waste per year are classified as Minimal Quantity Generators and may participate in the MClean program at the HHW Facility in Virginia. Make arrangements by calling 218-741-8831.
