

Waxes, polishes, degreasers, and other petroleum based products.

Reduce – Use water-based cleaners in place of solvent-based cleaners as much as possible.

Disposal – Solvent-based cleaners should not be disposed of down a drain, in the trash, or down a toilet. They should be brought to a household hazardous waste collection site. See [Household Hazardous Waste Collection](#).

Businesses: Unused solvent-based cleaners should be treated as hazardous waste. See [Clean Shop Collections](#), [Hazardous Waste and VSQG](#).
