Trailer/Detrailer ATV's

Member Name: _____

Number: V-311

Revision: 0

Date: 03-01-06

Page: 1 of 2

OBJECTIVE

Given a 4x4 or 6x6 ATV on its trailer, and a practical checkout with an evaluator, remove the ATV from the trailer, drive a short distance; then return and replace the ATV on its trailer. If the ATV is partnered with a rescue sled, remove it from the trailer as well, and connect it to the ATV. When finished, both units should be correctly positioned and fastened down on the trailer. No injury to riders or damage to equipment, no loosening of the equipment on the trailer, and no discretionary overrides from the evaluator should occur during the completion of this module. *See separate criteria list associated with this module.*

PREREQUISITES

Module: *O-303, Hook Up, Detach, Stow Trailers*

Module: *V-101, Locate, Identify, and Describe 4x4 ATV Controls and Functions*

Module: *V-102, Locate, Identify, and Describe 6x6 ATV Controls and Functions*

Module: *V-301, Start Up and Operate 4x4 ATV*

Module: *V-302, Start Up and Operate 6x6 ATV*

Skill Sheet

V-311, Trailer/Detrailer ATV's

Given a 4x4 or 6x6 ATV on its trailer, and a practical checkout with an evaluator, remove the ATV from the trailer, drive a short distance; then return and replace the ATV on its trailer. If the ATV is partnered with a rescue sled, remove it from the trailer as well, and connect it to the ATV. When finished, both units should be correctly positioned and fastened down on the trailer. No injury to riders or damage to equipment, no loosening of the equipment on the trailer, and no discretionary overrides from the evaluator should occur during the completion of this module. Do you have any questions?

NOTES TO EVALUATOR:

Task	Go	No-Go
Assembles ramps or tilt beds as appropriate for trailer		
Removes all tie-downs, chains, etc. from equipment to be de-trailerred		
Starts and moves machine per V-301/V-302		
Assembles rescue sled (if equipped)		
Connects rescue sled to machine (if equipped)		
Maneuvers machine (and sled combination, if equipped) away from trailer; repositions for loading with no damage, injury, or discretionary overrides from evaluator		
Disconnects rescue sled (if equipped) and packages for loading		
Repositions machine(s) and sled (if equipped on trailer); shuts down machines		
Connects all tie-downs as appropriate for trailer and machines		
Secures all ramps and tilt beds as appropriate for trailer		
All accessory equipment secured		
Uses body mechanics to minimize risk of back injury		

Critical Criteria

Check if Go; Circle if No-Go

- Must assemble ramps and tilt beds to avoid coming loose or falling off while unloading
- Must drive machines down ramp without going off sides of ramps or tilt beds
- Rescue sled must be securely connected to machine to prevent loss while underway
- Must replace equipment on trailer without driving over side rails or ends of trailer bed
- Must secure all ramps, machines, sleds, and equipment, with no loosening or loss.
