Certification of Buried Sewer Construction and Testing

This form is to be completed and submitted to the Minnesota Department of Health (MDH) for installation of a buried sewer located 20 to 50 feet from a water-supply well, or the installation of a water-supply well located 20 to 50 feet from a buried sewer. A sewer is a pipe or conduit carrying sewage or into which sewage may back up, including floor drains and traps. A sewer between 20 and 50 feet from a water-supply well must be constructed of cast-iron or plastic pipe meeting the material standards and testing requirements of the Minnesota Plumbing Code. **NOTE**: a 50-foot minimum separation must be maintained between a water-supply well and a buried collector or municipal sewer, an unapproved sewer, or a buried sewer serving a facility handling infectious or pathological waste.

Variance Information	
Was a variance issued by MDH for this sewer or well in	stallation?
If yes, please provide variance tracking number.	TN
Sewer Materials	
Sewer Material	Pipe Standard
Sewer Material	Pipe Standard
Building sewer and underground drain pipe materials at Code that are acceptable for the reduced 20-foot water ABS (Schedule 40): ASTM D1527, ASTM D2661, Cast Iron: ASTM A74, ASTM A888, CISPI 301 Co-Extruded ABS (Schedule 40): ASTM F1488 Co-Extruded PVC (Schedule 40): ASTM F891, ASTM P019ethylene: ASTM F714 PVC (Schedule 40): ASTM D1785, ASTM D2665, PVC: ASTM D3034 only if approved by the local	er-supply well isolation distance: ASTM D2680, ASTM F628 STM F1488 ASTM F794
Test Methods (check one) Air Test (5 psi constant pressure for 15 minutes) Manometer Test (1-inch water column) Hydrostatic Test (10-foot hydrostatic head for 15 m Describe the portion of the buried sewer system tested (pl	inutes) ease specify each segment of sewer pipe which was tested).
Buried Sewer Testing Diagram	
Please draw a site diagram of the sewer system and all buildings (serving floor drains[s], bathroom[s], laundry sewer pipes that were tested, the location of the well-	y room, etc.). Please note the portions of the buried

Certification

The undersigned certifies that the buried sewer(s) described above is/are constructed of the indicated, approved sewer material meeting the material standards and testing requirements of the 2015 Minnesota Plumbing Code. In accordance with Minnesota Statutes, section 144.972, persons submitting false information to the Minnesota Department of Health are subject to administration penalties of up to \$10,000.

Note: Witness information is not required for a tester who is a Minnesota licensed plumber or certified pipelayer. Testing by all other testers must be witnessed by a state or local building official or MDH inspector.
