Public Health
Prevent. Promote. Protect.

June 11, 2020

Dear Community Partner Organization,

We had a pretty good stretch of good news on the COVID-19 front in St. Louis County, with just 1 new case in 12 days! And then today it was announced we have 4 new cases. We all knew it was too soon to relax, and today is a reminder of why. Thankfully, none of these new cases are serious enough to require hospitalization.

As more and more businesses are re-opening, please do what you can to continue reminding people to wear masks, wash hands, stay six feet apart, and to work from home when possible.

A few updates/resources you may find helpful this week:

- MDH has provided an updated guide [Best Practices for Masks: Considerations for People with Disabilities and Special Health Needs](#)
- There is a new mobile app “Free Meals for Kids” to help children and families in need find and access free meals at hundreds of schools and other sites across Minnesota. The free app is available from Apple and Google Play. [More information and links to download are here.](#)
- Here’s an updated [guide full of mental well-being tips, resources, and tools](#). I encourage you to check it out yourself and share with any colleagues. Just as different people respond differently to stress and techniques to reduce stress, this guide covers a lot of topics that can help a lot of people.

Please remember I am here as a resource if you have any Covid-19 questions/concerns. I am available by phone or email, Mon-Fri, 8 a.m. to 4:30 p.m. Thank you for your continued partnership!

Raymond Jobe
