

Download the Webex Meetings App from an Android

If you have never joined a Webex meeting before, you will need to download the Webex Meetings app from the app store.

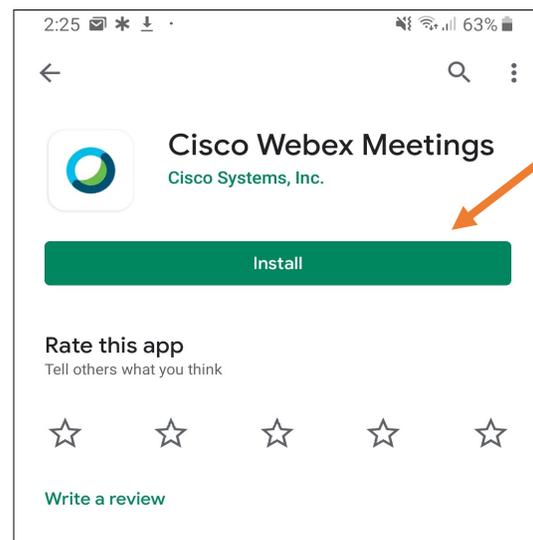

1. Find the **Play Store icon** on your phone. Tap it once to open.

2. Search for “webex” in the search bar at the top of the screen. Find Cisco Webex Meetings and tap it.

3. Tap the green **Install** button.
(You may need to know your google password to download the app)

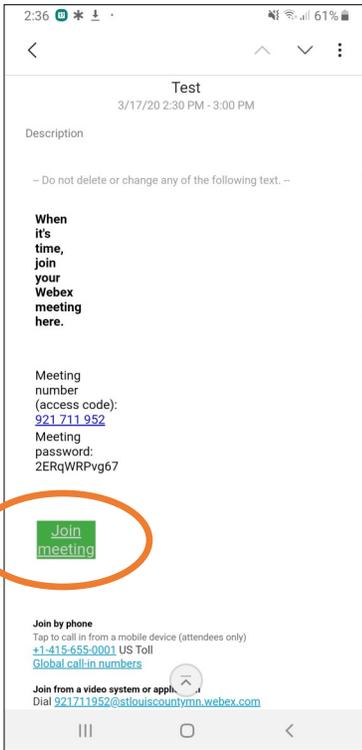

Join a Webex Meeting from an Android

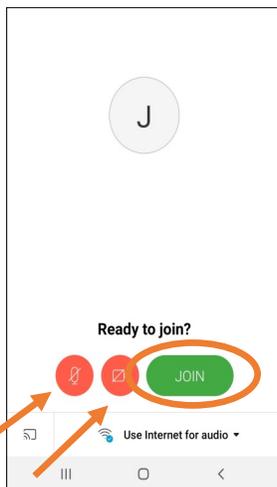

If you have email on your phone:

The person you are meeting with will send you an email.

1. Open the email from your phone and click on the **Join Meeting** link.

2. Tap the microphone and video icons to turn them from red to black.
Red is muted, black is not muted
3. Tap the green **Join** button.
4. It will ask you to enter the password. Enter it and tap **OK**.

If you have do not have email on your phone:

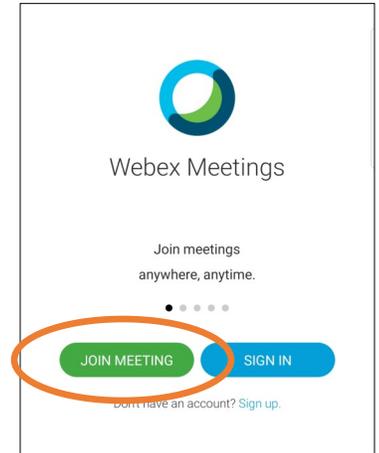

The person you are meeting with will give you a meeting number and a password.

1. Find the WebEx icon in your phone. It will look like this.

Tap on the icon to open.

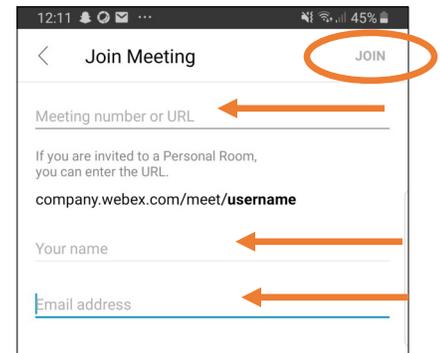

2. Tap the green **Join Meeting** button.

3. Enter your meeting number.

Enter your name and email address.

*(If you don't have an email address, type **name@gmail.com**)*

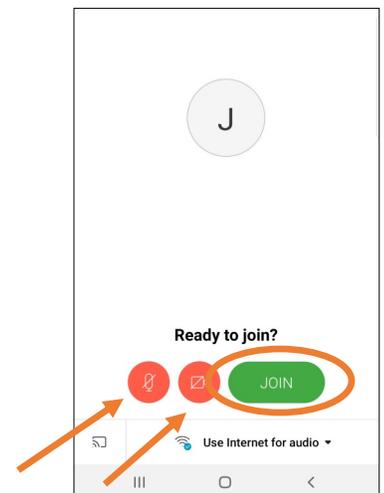

4. Click **Join** in the upper right corner.

5. Tap the microphone and video icons to turn them from red to black.
Red is muted, black is not muted

Red is muted, black is not muted

6. Tap the green **Join** button.

7. It will ask you to enter the password. Enter it and tap **OK**.
Capital and lower case do matter for the passwords.
