Comstock Lake Road culvert washed out

Last weekend's heavy rains have washed out a road east of Cotton used by cabin owners and permanent residents on Comstock Lake. Comstock Lake Road, also known as Unorganized Township Road 9230 is closed at the point where it crosses Tower Creek on the east end of Comstock Lake. Anyone needing to access their property should plan accordingly to enter from the north and east via CSAH 4, or the south and west via U.S. Highway 53, because no through traffic is possible.

The road is expected to remain closed for up to a month due to the time required to fabricate individual large sized culvert pipes required for placement at this site.
