

Legal Non-licensed Family Providers

Training Opportunities

What is the training policy for legal non-licensed providers caring for CCAP children?

Before the Child Care Assistance Program can pay non-licensed providers serving families receiving CCAP, the providers must have current First Aid and CPR training. After one registration period, if a provider still serves children receiving CCAP, the provider must take eight hours of additional approved training.

How do I know if my First Aid and CPR training is current?

Current First Aid and CPR Training means that the effective date shown on a card or certificate of completion has not expired as of the date the provider registration begins. First Aid and CPR training must be provided by an approved trainer. Some First Aid and portions of CPR training may be taken online, if provided by certain organizations. Check with your county licenser to see what qualifies

How do I know if a Child Care Aware training will be approved?

Child Care Aware of Minnesota agencies coordinate and only offer approved trainings. Any 8 hours of training offered by a Child Care Aware of Minnesota agency will satisfy the requirements for additional training.

Where can I find additional approved training?

Training offered by Child Care Aware of Minnesota can be accessed through **MNStreams.org**, or by calling **888.291.9811**.

Can I get help paying for training?

Legal non-licensed family providers can receive up to 75% reimbursement for the costs of First Aid, CPR, and the additional 8-hours of training.
